

# Analizni izvid / Certificate of analysis

## lecoris aselli oleum A

Serijska številka / Batch n°: LX0336-110005  
 Deklaracija / Corresponds to: Ph.Eur., USP, BP

Datum analize / Date of analysis: 28/11/2011  
 Datum proizvodnje / Manufacturing date: 06/2011  
 Uporabno do / Expiry date: 06/2013

| Specifikacija / Specification Values                   |                                                                                                                                                                                                                                                     | Rezultati / Batch Values |
|--------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| Lastnosti / Properties:                                | Bistra, rumenkasta tekočina, skoraj netopna v vodi, težko topna v etanolu (96 odstotnem), meša se s petroleom. / Clear, yellowish liquid, practically insoluble in water, slightly soluble in ethanol (96 per cent), miscible with light petroleum. | Ustreza / Conforms       |
| Istovetnost / Identification:                          | v skladu s preskusom / it complies with the test                                                                                                                                                                                                    | Ustreza / Conforms       |
| Barva / Colour:                                        | v skladu s preskusom / it complies with the test                                                                                                                                                                                                    | Ustreza / Conforms       |
| Relativna gostota / Relative density:                  | 0,917 – 0,930                                                                                                                                                                                                                                       | 0,920                    |
| Lomni količnik / Refractive index:                     | 1,477 – 1,484                                                                                                                                                                                                                                       | 1,482                    |
| Kislinsko število / Acid value:                        | ≤ 2,0                                                                                                                                                                                                                                               | 0,2                      |
| Anisidinsko število / Anisidine value:                 | ≤ 30,0                                                                                                                                                                                                                                              | 11,8                     |
| Jodno število / Iodine value:                          | 150 – 180                                                                                                                                                                                                                                           | 160                      |
| Peroksidno število / Peroxide value:                   | ≤ 10,0                                                                                                                                                                                                                                              | 3,03                     |
| Nemiljiva snov / Unsaponifiable matter:                | ≤ 1,5 %                                                                                                                                                                                                                                             | 1,3                      |
| Stearin / Stearin:                                     | v skladu s preskusom / it complies with the test                                                                                                                                                                                                    | Ustreza / Conforms       |
| Sestava maščobnih kislin / Composition of fatty acids: | v skladu s preskusom / it complies with the test                                                                                                                                                                                                    | Ustreza / Conforms       |
