

# Analizni izvid / Certificate of analysis

## Iodum

Serijska številka / Batch n°: LX0341-110004

Deklaracija / Corresponds to: Ph.Eur., BP

Datum analize / Date of analysis: 22/02/2012

Datum proizvodnje / Manufacturing date: 09/2011

Uporabno do / Expiry date: 09/2014

|                                               | Specifikacija / Specification Values                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Rezultati / Batch Values |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| Lastnosti / Properties:                       | Sivkasto vijolične svetleče ploščice ali fini kristali kovinskega leska, zelo slabo topni v vodi, lahko topni v koncentriranih raztopinah jodidov, topni v etanolu (96%), slabo topni v glicerolu. Pri sobni temperaturi počasi izhlapeva.<br><i>Greyish-violet, brittle plates or fine crystals with mettalic sheen, very slightly soluble in water, very soluble in concentrated solutions of iodides, soluble in ethanol (96 per cent), slightly soluble in glycerol. It volatilises slowly at room temperature.</i> | Ustreza / Conforms       |
| Istovetnost / Identification:                 | according to test                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Ustreza / Conforms       |
| Vsebnost / Assay:                             | 99,5 % – 100,5 %                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 99,8                     |
| Bromidi in kloridi / Bromides and chlorides:  | ≤ 250 ppm                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | < 30                     |
